

Date of meeting: 2022-10-07

Time: 6:00pm - 7:25pm

Note taker: Cynthia

Agenda:

- Discuss what work needs to be done for documentation and roadmap
- Assignment of work left for A1

A1 due date: Sunday before 11:59pm

Documentation

Developer setup command(s) and documentation

- Tevan

Tech Stack Documentation

Description of the tech stack and toolchain (and how we arrived at that design)

- frontend (Cynthia)
- backend (Cynthia)
- container (Tevan)
- CI/CD (Sung Hyun)

Roadmap

- Made with Miro (exported as "csc302-project-roadmap.JPG")

Coding work

- Have server output "I am running! I am talking to a database"
 - Cynthia
- Need test folder and a sample test file that outputs "I am running lots of tests!"
 - Sung Hyun
- One command install and setup script for all OS?
 - Tevan

Next meeting:

Tuesday October 11, 5:30pm-6:30pm

Agenda: what do we want to visualize?

Prep for everyone:

- have a descriptive vision of the website, or some low fidelity prototype.
